All investing involves risk, including the potential loss of principal. You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon sale of your shares. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation ("FDIC") or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress. The Fund may impose liquidity fees on redemptions subject to the Board's determination that such liquidity fees are in the best interests of the Fund. The imposition of a liquidity fee would reduce the amount you would receive upon redemption of your shares of the Fund. **Average Effective Duration** is a duration calculation for bonds that have embedded options. This measure of duration takes into account the fact that expected cash flows will fluctuate as interest rates change and is, therefore, a measure of risk. **Subsidized Yield** reflects fee waivers/reimbursements/limits in effect. **Unsubsidized Yield** does not reflect any fee waivers/reimbursements/limits in effect.
