

# VICTORY INTEGRITY MID-CAP VALUE FUND

CLASS A: MAIMX CLASS Y: MYIMX

Q1 // MARCH 31, 2018

## FUND FACTS

### Investment Style

Mid-Cap Value

### Investment Objective

The Integrity Mid-Cap Value Fund's management team seeks to achieve capital appreciation by investing in stocks of medium sized companies (according to their market capitalization) that the team believes are undervalued, but poised to outperform. The Fund generally invests in companies with market capitalizations within the range of the companies in the Russell Midcap® Index.

### Investment Strategy

The management team's investment philosophy is rooted in the belief that consistent, long-term performance can be achieved by applying a prudent value approach and investing in what they have determined to be statistically cheap stocks trading below their estimated value, investing in companies that have improving sentiment, and continuously evaluating the risk exposure. Specifically, they seek to invest in the right company, at the right price, and at the right time.

### Investment Team

Integrity Asset Management, based in Rocky River, Ohio, has been managing value-oriented equity strategies for institutional clients since 2003. Integrity, led by Chief Investment Officer Dan Bandi, also manages value-oriented mutual funds available through intermediaries and retirement plans. The team employs a fundamental approach to stock selection designed to identify the right company, at the right price, at the right time.

Performance returns for periods of less than one year are not annualized.

**Past performance does not guarantee future results. The performance data quoted represents past performance and current returns may be lower or higher. The investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. To obtain performance information current to the most recent month-end, visit [www.vcm.com](http://www.vcm.com).**

Investment returns reflect total fund operating expenses, net of all fees, waivers, and/or expense reimbursements. Index performance is shown for illustrative purposes only. It is not possible to invest directly in an unmanaged index. Performance for other share classes will vary.

### Growth of a \$10,000 Investment Class A Shares, without sales charge (6/30/2011–3/31/2018)

The Growth of \$10,000 chart reflects a hypothetical \$10,000 investment and assumes reinvestment of dividends and capital gains. Fund expenses, including management fees and other expenses were deducted. The returns do not reflect the deduction of sales charges (loads). If sales charges were included, returns would be lower.

**All investing involves risk, including potential loss of principal. There is no guarantee that the Fund will achieve its objective.** Investments in small and mid-size companies can involve risks such as less publicly available information, higher volatility, and less liquidity than larger companies.

The Adviser has contractually agreed to waive a portion of its management fee and/or reimburse certain expenses through at least October 31, 2018. The Adviser is permitted to recoup fees waived/expenses reimbursed for up to 3 years after the fiscal year in which the waiver/reimbursement took place, subject to certain limitations. Please read the prospectus for details.

Estimated EPS Growth and P/E Ratios are based on information obtained from a third party that is believed to be reliable. Estimates are inherently limited and should not be relied upon as an indicator of future results.

**Alpha** is the excess return of a fund relative to the return of a benchmark index. **Beta** is a measure of the volatility, or systematic risk, of a security or portfolio relative to the market or a benchmark.

[WWW.VCM.COM](http://WWW.VCM.COM) // 800.991.8191

**R-squared** is a statistical measure that represents the percentage of a fund's or security's movements that can be explained by movements in a benchmark index. **Standard deviation** is a statistical measurement of an investment's historical volatility. It is applied to the investment's annual rate of return. **Price-earnings ratio (P/E ratio)** is a ratio for valuing a company that measures its current share price relative to its per-share earnings. It represents the multiple of earnings at which a stock sells. **Turnover – Last 12 Months (LTM)** is a measure of trading activity in a mutual fund portfolio of investments for the past year that indicates how often investments are bought and sold.

The Russell Midcap® Value Index is a market capitalization-weighted index that measures the performance of Russell Midcap® Index companies with relatively lower price-to-book ratios and lower forecasted growth.
