12/31/2009	30.99%	29.93%	34.39%	24.23%	24.25%	18	1.59%	\$118	N/A

\*Composite performance for 2015 has been split into two sub-periods as there were no accounts included in the composite for the month of April 2015. As performance before and after the break cannot be linked, the three-year annualized ex-post standard deviation is not presented for the three years following the break.

Victory Capital Management acquired composite from Munder Capital Management on 10/31/14. Firm assets prior to 2014 are shown as "N/A" above as the composite was not part of the firm.

1. Victory Capital Management Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Victory Capital Management has been independently verified for the period from January 1, 2001 through December 31, 2017. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Munder Small-Cap/Mid-Cap Blend Composite has been examined for the periods January 1, 2014 through December 31, 2017. The verification and performance examination reports are available upon request.
2. Victory Capital Management Inc. (Victory Capital) is an independent multi-boutique investment advisor registered under the Investment Advisers Act of 1940 and comprised of multiple investment teams, referred to as investment franchises. Victory Capital's investment franchises are: Expedition Investment Partners, INCORE Capital Management, Integrity Asset Management, Munder Capital Management, New Bridge Asset Management, RS Investments, Sophus Capital, Sycamore Capital, Trivalent Investments, and VictoryShares & Solutions. Each investment franchise utilizes an independent approach to investing and offers one or more investment strategies that specialize in a specific asset class. Prior to August 2013, Victory Capital Management was a wholly-owned subsidiary of KeyBank National Association. Victory acquired Munder Capital Management and its wholly owned subsidiary, Integrity Asset Management on October 31, 2014. Prior to the acquisition, Munder Capital Management and Integrity Asset Management were treated as separate GIPS firms. Effective November 1, 2014, the two entities are part of the Victory Capital Management GIPS firm. Victory Capital Management acquired CEMP on April 30, 2015. Victory Capital Management acquired RS Investments, including Sophus Capital, on July 29, 2016. RS Investments and Sophus Capital joined the Victory Capital Management GIPS firm effective January 1, 2017.
3. The Munder Small-Cap/Mid-Cap Blend Composite includes all fee-paying, non-wrapped discretionary portfolios of \$100,000 or more that are managed according to the Munder Small-Cap/Mid-Cap Blend strategy. The strategy seeks small- and mid-sized companies that we believe are attractively valued, have the ability to produce superior and consistent earnings growth, have a strong balance sheet and demonstrate efficient use of capital. The composite creation date is November 2009.
4. The benchmark of the composite is the Russell 2500™ Index. The Russell 2500™ Index measures the performance of the smallest 2,500 companies (based on market capitalization) in the Russell 3000® Index, an index of the top 3,000 U.S. stocks by market capitalization covering 98% of the U.S. equity investable universe. The benchmark returns are provided to represent the investment environment existing during the time periods shown and are not covered by the report of independent verifiers. For comparison purposes, the index is fully invested, which includes the reinvestment of income. The returns have been taken from a published source and do not include any transaction fees, management fees, or other costs.
5. The internal dispersion of annual returns is measured by the standard deviation of asset-weighted gross returns of accounts included in the composite for the full year. If less than six portfolios are included in the composite for the full year, no dispersion measure is presented, as it is not considered meaningful (N/M). The three-year annualized ex-post standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. It is not required to be presented for annual periods prior to 2011 or when a full three years of composite performance is not yet available.

# VICTORY COMPOSITE PERFORMANCE

## MUNDER SMALL-CAP/MID-CAP BLEND

6. Composite and benchmark returns are presented net of non-reclaimable withholding taxes. Gross-of-fees returns are presented before management and custodial fees but after all trading expenses. Through March 2012, the net returns shown are based on actual fees and reflect gross performance less the actual investment management fees, including any performance fees. Starting April 2012, the net-of-fees returns are calculated by deducting 1/12 of the highest tier of the standard fee schedule in effect for the period noted (the model fee). The composite model fee for each period is either the highest tier of the current fee schedule or a higher value, whichever is required to ensure the model composite net-of-fee return is lower than or equal to the composite net-of-fee return calculated using actual fees. Actual fees may vary depending on, among other things, the applicable fee schedule and portfolio size. The firm's fees are available on request and may be found on Part II of its Form ADV. The complete fee schedule for this product is:

<u>Market Value</u>	<u>Annual Fee</u>
First \$10,000,000	0.85% (Min. Annual Fee: \$85,000)
Next \$15,000,000	0.75%
Next \$25,000,000	0.70%
Next \$50,000,000	0.60%
Above \$100,000,000	0.50%

7. Valuations and returns are stated in U.S. dollars. Past performance should not be considered indicative of future performance. A list of composite descriptions and policies of valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. Registration with the SEC does not imply a certain level of skill or training.
8. The composite is managed by Munder Capital Management, a Victory Capital investment franchise. Performance prior to October 2014 occurred while the team was affiliated with a prior firm. The investment management team has managed the composite strategy since inception and the investment process has not changed. The historical performance has been linked to performance earned at Victory Capital Management.
9. The composite has a policy to temporarily remove accounts from the composite when a significant cash flow occurs. Effective November 2009, a significant cash flow is defined as a cash inflow or outflow of 15% or more of the portfolio value at the beginning of the month. The account is removed from the composite for the month in which that cash flow occurred.
